DETAILED ACTION

Allowable Subject Matter

1. Claims 1-25 have been allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a vertical handoff system comprising: a first foreign agent providing connectivity to a network, the first foreign agent broadcasting a wireless local area network signal; a second foreign agent providing connectivity to the network via a wireless wide area network signal; a mobile node comprising executable code for performing a vertical handoff between the first foreign agent and the second foreign agent; and a home agent routing information to the mobile node through one of the first foreign agent and the second foreign agent according to an established connection of the mobile node as claims 1 and 9; and a corresponding method of vertical handoff comprising: monitoring a wireless local area network signal carrying an active network connection; initiating vertical handoff to a wireless wide area network signal upon determining that the wireless local area network signal is undesirable; tunneling the active network connection over the wireless wide area network signal; and caching and replaying information over the wireless wide area network signal as claim 12 and a program storage device with a program of instruction executable by a machine as claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Korus, Michael (PTO-892 attached) disclose systems of having vertical handoffs with different approaches.
